

COVID-19 Emergency Support Framework

Engagement and support call Summary Record

Buckland Care Limited

| Location / Core Service address | Date |
|--|------------|
| Brunswick House Nursing Home 119 Reservoir Road , GL4 6SX Gloucester | 22/05/2020 |

Dear Brunswick House Nursing Home,

The Care Quality Commission is not routinely inspecting services during the COVID-19 pandemic. We are maintaining contact with providers through existing monitoring arrangements and engagement and support calls covering four assessment areas:

- Safe Care and Treatment
- Staffing arrangements
- Protection from Abuse
- Assurance Processes, Monitoring and Risk Management

This Summary Record outlines what we found during the engagement and support call shown above, using standard sentences and an overall summary.

We have assessed that you are managing the impact of the COVID-19 pandemic at the above service. The overall summary includes information about the internal and external stresses you are currently experiencing, how they are being managed, and sources of support that are available.

Emergency Support Framework calls and other monitoring activity are not inspections. Summary Records are not inspection reports. Summary Records are not published on our website.

Assessment Area 1

Safe care and treatment

1.1 Had risks related to infection prevention and control, including in relation to COVID-19, been assessed and managed?

Yes There were systems to assess and respond to risks regarding infection prevention and control, including those associated with COVID-19.

1.2 Were there sufficient quantities of the right equipment to help the provider manage the impact of COVID-19?

Yes Essential equipment, such as personal protective equipment, was available in sufficient quantities to help you manage the impact of COVID-19.

1.3 Was the environment suitable to containing an outbreak?

Yes You had taken steps to ensure the environment was as effective as possible in containing an outbreak of COVID-19.

1.4 Were systems clear and accessible to staff, service users and any visitors to the service?

No Systems to manage the environment were not always clear and accessible to people.

1.5 Were medicines managed effectively?

Yes Service users' medicines were effectively managed, despite the increased pressures associated with COVID-19.

1.6 Had risk management systems been able to support the assessment of both existing and COVID-19 related risks?

Yes Systems enabled the continued management of known risks, as well as enabling the provider to respond to new and emerging risks, including those posed by COVID-19.

Assessment Area 2

Staffing arrangements

2.1 Were there enough suitable staff to provide safe care and treatment in a dignified and respectful way during the Covid-19 pandemic?

Yes There were enough suitably skilled staff to provide people with safe care in a respectful and dignified way during the Covid-19 pandemic.

2.2 Were there realistic and workable plans for managing staffing levels if the pandemic leads to shortfalls and emergencies?

Yes There were realistic and workable contingency plans for staffing shortfalls and emergencies during the COVID-19 pandemic.

Assessment Area 3

Protection from abuse

3.1 Were people using the service being protected from abuse, neglect and discrimination?

Yes People were being safeguarded from abuse, harassment and discrimination.

3.2 Had the provider been able to properly manage any safeguarding incidents or concerns during the pandemic?

Yes Action had been taken to properly respond to incidents, alerts or potential safeguarding incidents at the service.

Assessment Area 4

Assurance processes, monitoring and risk management

4.1 Had the provider been able to take action to protect the health, safety and wellbeing of staff?

Yes Staff health, safety and wellbeing were protected despite the increased pressures associated with COVID-19.

4.2 Had the provider been able to implement effective systems to monitor and react to the overall quality and safety of care

Yes There were effective systems to monitor the overall quality and safety of care being provided at the service during the COVID19 pandemic.

4.3 Is the provider able to support staff to raise concerns during the pandemic?

Yes Staff were able to raise concerns and were supported to speak up during the pandemic.

4.4 Had care and treatment provided to people being sufficiently recorded during the Covid-19 pandemic?

Yes Care and treatment provided to people is being sufficiently recorded during the Covid-19 pandemic.

4.5 Had the provider been able to work effectively with system partners when care and treatment is commissioned, shared or transferred?

Yes Working arrangements and information sharing with system partners during the Covid-19 pandemic are effective.

Overall summary

This conversation was held with the new home manager. The conversation included discussion about two reported cases of 'information of concern'. One received by the local authority and the other by CQC. Both had been discussed with the local authority's safeguarding team and the CQC inspector prior to this ESF conversation, both had been investigated and reports were due to be forwarded to each agency.

We also discussed the need for the current CQC death notification to be used and sufficient information to be recorded on these. The new home manager had identified that DoLS notifications had probably not been forwarded to CQC. The inspector forwarded information about the last DoLS notification received by CQC which was in April 2018. The new home manager said she would address the lack of required DoLS notifications. We also discussed the new home manager's plan to apply for registration and the now completed voluntary de-registration of the current registered manager who still works in the home. The inspector forwarded a link from CQC's website on Medicines Guidance following the conversation. Both the new home manager and inspector agreed this had been a useful and open conversation about the service's successes and challenges so far during this pandemic.
